Congratulations are in order!

Lynnea Bylund receives National Recognition!

WASHINGTON, DC, September 21, 2006 – The National Republican Congressional Committee's Business Advisory Council has announced that Lynnea Bylund of Dana Point, California will receive its 2006 Congressional Medal of Distinction!

NRCC Chairman Tom Reynolds explained that "only an elite group of business and professional people were nominated to receive the award who have championed the free enterprise system and supported the ideals of smaller government, lower taxes and less regulation." Congressman Reynolds commented "I am extremely grateful for the tremendous support and selfless service that Ms. Bylund has shown for our Country and the small businesses of America."

Last December the NRCC Business Advisory Council recognized Ms. Bylund as one of twelve American Business Women of 2005.

The Business Advisory Council is a special project of the NRCC in which small businessmen and women work with Republican leaders in Washington to help shape the Party's agenda and also provide financial support for conservative candidates to the House of Representatives.

"I am gratified and humbled by the recognition that the NRCC has given me and I look forward to fighting the good fight as America continues to change rapidly in the face of mounting challenges," states Ms. Bylund.

Commenting on Ms. Bylund's selection, Congressman Reynolds said, "Ms. Bylund has served as Honorary Chairman of the Business Advisory Council and has provided much needed support. This award could not have gone to a more deserving candidate."

Earlier this month Ms. Bylund was recognized a one of NRCC's "Republicans of the Year."

Born and raised in Orange County California, previously Ms. Bylund lived and worked in Washington DC where she was a lobbyist for small business and telecommunications issues. She is the founder of two small business-based wireless trade associations and has lobbied on Capitol Hill and at the FCC where she has spoken out strongly against the cable TV monopoly, illegal spectrum warehousing and ill-conceived congressional schemes to auction the nation's precious airwaves to the highest bidder.

In 1995 Ms. Bylund became the first female in the world to be awarded a Broadband PCS operating permit - she was one of only 17 winners, along with Sprint, AT&T, Pacific Bell, etc. in the biggest cash auction in world history, raising a whopping \$8 billion.

Currently Lynnea Bylund operates an Orange County start-up company that provides bundled media advertising and marketing solutions to small businesses. "Our company, AD|MAX, is 'ground zero' for next-generation convergence of bundled merchant media, e-commerce, and barter for OC small merchants," explains Ms. Bylund.

Primarily benefiting Southern California merchants by increasing customer flow, the AD|MAX merchant media solution combines quality exposure elements of both a local and worldwide Internet portal presence, along with local cable and radio spots, residential direct mailings, yellow pages, and barter-exchange commerce and economics.

"The AD|MAX unified-media solution affords local merchants a generous value-added integration of several proven marketing solutions and media products including TV, radio, direct-mail, print, Internet, and mobile text-message promotion, priced well within reach of most small businesses," said Bylund.

AD|MAX is exclusively represented by TVA Capital, an NASD broker-dealer.
